

A-1 FENCE
Fence & Fence-ability

A-1 ANTI-VEHICLE BARRIER

Crash certified A-1 Anti Vehicle barriers are engineered to provide exceptional security to areas of national & strategic importance, critical infrastructure & utilities against any oncoming hostile vehicle threat. Designed to help you live risk-free, our AVBs offer top-tier perimeter protection in a cost effective manner.

Crash Rating:

ASTM F2656 - 15 - M50 P1

HCIS Compatible:

Class 1, 2 & 3

TOUGH & RESILIENT

Meticulous product design and strong foundation allows easy obstruction of any impact load without suffering significant damage.

BEAM SPAN

With the largest beam span in the industry, AVB require less fence posts for installation making it a cost-effective solution.

FEATURES

CRASH TESTED

Designed for high strength and tenacity, AVBs are crash certified products that comply with international standards.

LONG PRODUCT LIFE

Hot-dip galvanized after fabrication which offers corrosion resistance.

SPECIFICATIONS

Parameter	Dimensions
Beam Length	11857 mm
Beam Width	190 mm
Beam Thickness	6mm
Post Height (above ground)	1075 mm
Foundation depth	1200 mm
Finish available	Hot Dip Galvanized
Colours	
Vehicle Speed	80 kmph
Vehicle Weight	7500 Kgs

APPLICATIONS

Oil and Gas

Power Generation

Sea Ports

Water Desalination

Chemical Plant

21, A-B-C, Raju Industrial - Estate Premises, Co-op. Society Ltd.
Penkarpada Road, Mira, District - Thane - 401107
