

UNICOPrima®

Modular Fencing Systems for Aesthetic Perimeter Demarcation

UNICOPrima is a modular weld-mesh fencing system that combines affordability with elegance and durability. Modular design allows end-users and DIY enthusiasts to procure component panels, posts and accessories; for assembling these fences quickly on site without having to bother with on-site welding and painting.

UNICOPrima fences offer benefits of robot-welded robust metal meshes in an eye-catching finish, that is easy to hose down for cleaning; UV resistant to withstand years of sunlight, remains corrosion-free under heavy and repeated rains and does not peel or require repainting after every monsoon.

Multiple options in sizes and colours enable interesting and creative permutations to achieve configured solutions that are site-specific and aligned to an overall design theme.

UNICOPrima with its signature rectangular wire mesh and innovative bell shaped post, designed to eliminate the need for fasteners at site, is both functional and elegant.

The proprietary UNICOPrima design makes light of the challenge of fencing tight corners, and easily adapts to odd angles that maybe a typical feature of a particular location or site.

APPLICATIONS

Bungalows

Parks &
Playgrounds

Schools &
Colleges

Commercial &
Residential
Buildings

Walkways

Factories &
Warehouses

FEATURES & BENEFITS

Distinctive and unique profiled fence post with quick clip-on installation. No accessories required for panel to post fixing & easy on corners.

Modular component design for on-site assembly and installation without painting or welding.

Multiple height options - Use 4 ft high panels as wall-tops, or the 6 ft panels for ground-up fencing.

Choice of Colour - mix and match panels and posts for innovative patterns.

UNICO finish - Bright and vibrant UV resistant colours, provide long life, resistant to fading, corrosion resistance, elimination of re-painting, freedom from peeling.

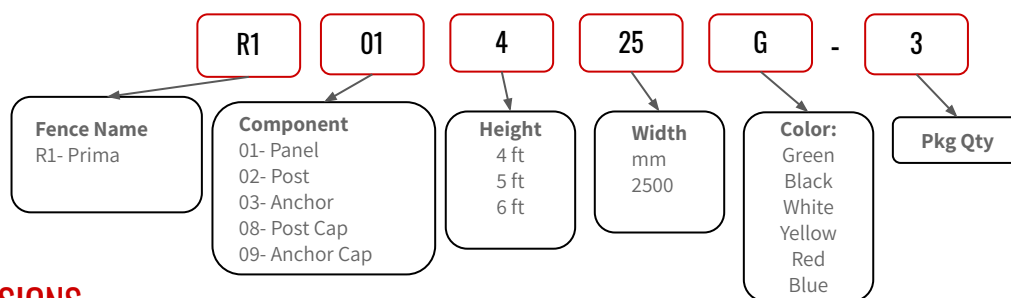

Mass-produced in a factory on automated machines - Uniform and long-lasting welds, dimensional fidelity for field assembly.

COLOR PALETTE

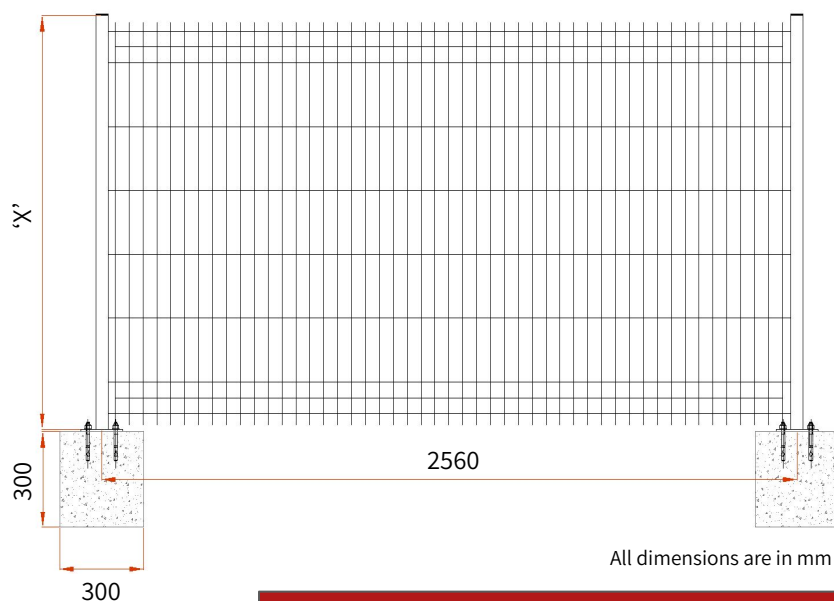

Our Proprietary **UNICO** powder coating process adds vibrant colors to the fence while protecting against the elements. There is a varied color palette to choose from. Modular system enables mix and match of colors.

| COLOR CODE | X | RAL CODE | COLOR REPRESENTATION |
|------------|---|----------|----------------------|
| White | W | 9010 | |
| Grey | Y | 7016 | |
| Red | R | 3020 | |
| Yellow | L | 1021 | |
| Blue | U | 5015 | |
| Green STD | G | 6005 | |

PART CODE

SYSTEM DIMENSIONS

All dimensions are in mm

| | Mini | Reg | Maxi |
|-----|---------|---------|---------|
| 'X' | 1300 mm | 1600 mm | 1900 mm |

UNICO Prima COMPONENTS

| Part name | Part no | Description |
|--|--|--|
| Prima Panel  | R101425G-1 R101425G-3 R101525G-1 R101525G-3 R101625G-1 R101625G-3 | Prima provides aesthetic demarcation and generous see-through visibility without compromising strength and stiffness. The end vertical wire loops into the post eliminating joining fasteners. |
| Prima Universal Post  | R102450G-2 R102550G-2 R102650G-2 | Anchors the fencing to the base foundation, and holds the panels in place. Innovative clip-on design enables the panels to be fixed at any angle to accommodate site geometry. |
| Prima Post Cap  | R908110G-100 R908110B-100 | Top cover to the post to prevent ingress of water and dust. |
| Anchors  | R903110Z-150 | Galvanised fasteners designed to hold the fence in place and anchor the fence to the ground. |
| Anchor Caps  | R909110G-200 | Caps to protect the anchors from dust and rainwater. |

DIMENSIONS

| | Mini | Regular | Maxi |
|----------------------|-------------|---------|------|
| Mesh Aperture | 50 x 200 | | |
| Panel Height | 1260 | 1560 | 1860 |
| Panel Width | 2500 | | |
| Post C-C | 2560 | | |
| Post Length | 1300 | 1600 | 1900 |
| Post Type | UNICO Prima | | |
| Anchors | M12 x 150 | | |

UNICOPrima SPECIFICATIONS

Raw Materials:

Panel:

Galvanised MS Wire: Over 40 GSM
Tensile Strength: 55 - 75 kg/mm²

Post:

Pre-Galvanised MS 120 GSM

Base-Plate:

Hot-Dip Galvanised MS

Post Cap:

PVC

Anchors:

GI

Anchor Caps:

PVC

Colour Coating:

Process- Pure Polyester Coating (PPC)

Thickness- Over 65 microns

Test- 1000 hrs Salt Spray Tested

Traceability:

Tracing with unique tracing number

Quick response to customer query

Easy Warranty claims

Welding Specification:

Welding Process- Electrical resistance welding

Weld Strength- The average weld shear strength of 4 welds taken at random shall not be less than 50 % of the breaking strength of vertical wire

Quality Specifications:

Sample Testing per IS 2500

Mesh Aperture- ± 2 mm Tolerance

WARRANTY STATEMENT

We assure our customers that all UNICO products shall be manufactured conforming to the prevailing Quality specifications and standards. UNICOPrima standard fence components set in normal fencing conditions are warrantied for a period of two years. Please see a-1fence.in/warranty for further information on warranties.
